

The Advantages of Being Bilingual

Our aim is to prepare our pupils for the future workplace in Wales and beyond. Pupils will experience a bilingual learning environment. They will be encouraged and supported to maintain and improve their Welsh language skills throughout their time at Ysgol Gyfun Emlyn.

Our school places great importance on Wales, the Welsh language and culture. By caring for each other and our environment we will create a civilized and supportive atmosphere that allows every individual within the school community the opportunity to develop to their full potential, and feel comfortable with their personality and identity.

The Welsh language is an important part of our school. Pupils are given opportunities to converse, read and write in English and Welsh. Providing pupils with these opportunities will improve their prospects of employment in the future. By making the decision to attend Ysgol Gyfun Emlyn your child will be able to:

- speak more than one language and experience different cultures
- think more flexibly and creatively
- improve their job prospects
- communicate with a wider variety of people
- participate fully in all aspects of community life
